EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Don Hill on 1/29/2008.

The application has been amended as follows:

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Changing the plurality of identical numerals in Figs 5 and 9. In both figures, the lower 21 and 27 will be changed to 21' and 27'.

3. The following is an examiner's statement of reasons for allowance: Claim 10 is allowable over the art of record because the prior art does not teach or render obvious the entire combination including specifically a method of testing the continuity of a connection between an IC pin and a circuit board where the IC pin is connected to a plurality of IC pins forming a first group comprising identifying a second group of IC pin having electrical properties relatable to the first group, applying signals to the first group and second group, measuring the

voltage differences of each, and extracting and comparing a non-linear characteristic of the groups of pins to obtain a measure of continuity.

Claim 28 is allowable over the art of record because the prior art does not teach or render obvious the entire combination including specifically an apparatus for testing the continuity of a connection between an IC pin and a circuit board where the IC pin is connected to a plurality of IC pins forming a first group comprising a first tester for applying M test signals the first group, a second tester for applying N test signals to a second group relatable to the first group, and a processor responsive to the voltage differences for deriving or comparing a non-linear characteristic of the first and second groups of pins to obtain a measure of continuity.

Claims 29-35, 38 and 39 are allowable as they depend from claim 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOHN ZHU whose telephone number is (571)272-5920. The examiner can normally be reached on M-F, 8-4:30.
